What's New...

New Optional Student Video Statement!

Students applying to Monmouth University for Fall 2010 have the option to submit a written personal statement or video statement. Please note—the written personal statement and the video statement are both OPTIONAL components to the application. Here’s how the video statement works: using their personal Facebook account, students will go onto the official Monmouth University Facebook page and request to join the “Optional Video Statement—Monmouth University Class of 2014” group. Applicants may upload a video statement that is up to one minute long on “Why I want to be a Monmouth University Hawk.” In order for that video to be considered part of their application for admission, they must also e-mail video@monmouth.edu.

Any questions? Please call the Office of Undergraduate Admission at 732-571-3456.

New Multipurpose Activity Center (MAC) opens for students, athletics, and more...

Monmouth University is pleased to announce the opening of the new Multipurpose Activity Center. A destination point for all students, the center offers first-class facilities for recreational and athletic use. A top-tier fitness center and 200-meter, six-lane competitive track are open for students, faculty, and staff seeking to improve their everyday wellness!

The new arena boasts approximately 4,000 first-class seats for basketball games, concerts, and shows. The center-mounted video scoreboard can be lowered to screen movies. The building also houses the University’s Leon Hess Champions’ Hall and the Monmouth bookstore, and provides meeting and lounge space for students, classes, and small groups.

SAT Writing Section Added to Admission Evaluation

Beginning for the Fall 2010 semester, Monmouth University will consider all three sections of the SAT—Critical Reading, Math, and Writing—during the evaluation process of applicants. Monmouth requires that applicants submit either the SAT or ACT as part of their application. Students submitting the ACT must also submit the ACT Writing component.

New Residence Hall Opening for Fall 2010

This year, Monmouth broke ground on a new freshman residence hall which will be completed for the Fall 2010 semester. Just under 200 freshmen will be housed in the new residence hall. And, beginning in Fall 2010, freshman housing is guaranteed for all students who submit their enrollment deposit, housing contract, and housing deposit by May 1.
As an exciting location that gives students access to career, cultural, and social opportunities in two of the most vibrant cities in the country, New York City and Philadelphia. Easy access (less than a mile!) to one of the most beautiful beaches in New Jersey and the Atlantic Ocean, State-of-the-art facilities and a 156-acre campus that boasts a National Historic Landmark building, Wilson Hall. Faculty who are involved in nationally recognized research. This is just the beginning of Monmouth University!

Monmouth University is a private, mid-sized, coeducational, comprehensive university that puts students first through a commitment to small classes (you will not find a class over 35 students; the average class size is 22) and close faculty-student interaction. Monmouth University offers an NCAA Division I athletics program, has students from throughout the country and around the world, and offers programs in eight different schools: the Wayne D. McMurray School of Humanities and Social Sciences; the School of Education; the Leon Hess Business School; the School of the Arts; the Marjorie K. Unterberg School of Nursing and Health Studies; the School of Social Work; the Graduate School; and the Honors School.

2010-11 Monmouth University Athletics Fact Book

Did You Know?

• Monmouth Blue Goes Green!
In June 2009, Monmouth received the NJBIZ Green Leadership Award for Energy Conservation, recognizing the University's ongoing commitment to responsible energy usage and sensitivity to the environment.

• Monmouth University's 454-kw solar-powered system is the largest installation at a University in the eastern half of the United States. In addition, Monmouth University eliminated trays in the dining facilities, retrofitting lighting to slash energy consumption 30 percent in the gymnasium, added energy-efficient police vehicles, and replaced 1,200 light bulbs with bulbs that use one-third less energy.

• Monmouth University is the first private university in New Jersey to sign a comprehensive green operation agreement with the U.S. Environmental Protection Agency (EPA). The agreement, a memorandum of understanding, outlines goals to improve the school's energy, water and fuel usage, and waste disposal.

"Monmouth University is proud to be a leader in energy conservation and committed to implementing programs to create a green environment for our students and employees, as well as the community," said President Paul G. Gaffney II.

• Five-Year Programs. Monmouth University offers five-year programs in Business Administration, Computer Science, Criminal Justice, Education (certification programs), English, History, Political Science/Public Policy, Social Work, and Software Engineering. These programs allow students to earn both a bachelor's and master's degree in a five-year period. Accepted students with a minimum 3.25/4.0 scale and 1800 SAT (Critical Reading, Math, and Writing) may join the Five-Year Programs.

• Eight-Year Joint Undergraduate/Medical School Program.
For New Jersey residents only, the Monmouth Medical Center Scholars Program is a highly competitive program that ensures a seamless route from undergraduate study to medical school. Students must apply directly into the program and have a minimum high school GPA of 3.3/4.0 scale and SAT (Critical Reading and Math) of 1270 to be considered.

• Honors School. Students with a minimum high school GPA of 3.3/4.0 scale and SAT (Critical Reading, Math, and Writing) of 1750 may be invited to join the Honors School at Monmouth University. With a curriculum that includes clustered courses, the Honors School offers students a unique and enhanced learning experience within the standard curriculum.
