

Dems to Sponsor Communist Series Wed. Afternoons

Communism will be the subject of four lectures to be given at Monmouth College on Wednesdays at 4:00 p.m. during April.

The purpose of these lectures is to introduce four aspects of Communism (listed below) without polemics. Hopefully, the series will lead to a broader understanding of this particularly ominous world threat.

The College Young Democrats, sponsors of the series, believe that only by comprehending Communism can the free world hope to effectively combat it. World wide fear and ignorance of Communism leads only to mass hysteria, hardly an appropriate response to domestic and or international Communism.
