

LETTERS TO THE EDITOR

To The Editor:

I am a soldier serving with the 226th Supply and Service Company in Tuy Hoa, Vietnam.

I am the company mail clerk and I am having a rough time because the company isn't getting enough mail.

If it would be at all possible, I would appreciate some mail for my men from the students at your college.

Mail is the most important thing to GI in Vietnam and we just aren't getting enough. Being the mail clerk I think it's my job to take action and request that the students write.

It doesn't matter what they write about just the idea of getting mail from home is a great moral booster.

If you are able to help me out please address the mail to:

The reason I chose Monmouth College is because I live only about 4 miles from the college in Wanamassa and I think a college of your size could help me a great deal.

Yours Truly,
