

# Pentagon Seeks MC Support

by BOYS FROM 220 CHELSEA

An appeal from President Johnson has activated the moth ball unit of the Blue Grenaders. Mr. Johnson gravely related to Dr. Van Note how much these brave "Blue Warriors" are needed.

Because the Blue Grenaders have demonstrated their precision gorilla tactics when marching through the great swamp and because of their familiarity under damp and moldy conditions they have been chosen by the Secretary of War to lead the first "all out" offensive into Viet Cong territory. Johnson went on to say

that the Blue Grenaders' fierce attitude and high morale qualify them for the dangerous damp task that lay ahead. Their attitude is exemplified in their marching song entitled "Shiny Waterproof Boots Keep Your Feet Dry," sung to the tune of "Raunchy" in E flat minor.

Communist Viet Cong leaders, upon hearing of our Blue Boys panned attack quivered in fear; and released the following statement. "Oh no, how are we going to stop these damp white helmets."
